The Untethered Soul Endorsed by Philosopher and Psychologist Jean Houston

This year, renowned philosopher and psychologist Jean Houston highly recommended *The Untethered Soul* to both students and colleges. Earlier this spring she was the Keynote at the 2008 Psychotherapy Networker conference. This is psychotherapy's premier conference drawing nearly 4000 therapists each year to Washington, D.C. to learn about the field's latest ideas and developments from its foremost teachers and practitioners. At the conference Ms. Houston spoke to workshop participants about the importance of *The Untethered Soul* and urged them to integrate its principles into their work. She has also used the book as the key text in her two Mystery Schools, one on the East and the other on the West Coasts.

Dr. Houston recently said that the book "...is indeed one of the finest treatments of the nature and practice of the conscious use of consciousness that I have ever read. *The Untethered Soul* is essential to the re-thinking of psychological perspectives for our time and can be of critical importance to the therapeutic fields and disciplines. It is the clearest statement I know, of who we are and what we face in our emerging humanity."

— Jean Houston, philosopher, psychologist, and author of *A Mythic Life* and *Passion for the Possible*
